

# Due Date Chart

To figure out your expected date of delivery (EDD) - also known as your due date - you need to know when you started your last menstrual period (LMP).

Find your LMP date on the chart below to discover when your baby is expected. For example, if your last LMP was January 13, then your baby will be due on October 20.

<b>January</b>	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31
